Favourite photos

So here are some of my favorite bird photos that I've taken:

1. A small black bird with black claws and a long black slender beak.
2. The top half of a pretty bird with bright blue plumage on the neck, a light colored beak, and a blue headdress.
3. The top half of a large bird with white plumage, very long curved narrow light colored break.
4. A large bird, mostly white plumage with black plumage on back and rear, long straight white beak.
